📋 WHAT ? 🔽

ℹ️ Inside (stylized as INSIDE) is a puzzle-platformer adventure game developed and published by Playdead in 2016 for PlayStation 4, Xbox One and Microsoft Windows. The game was released for iOS in December 2017 and Nintendo Switch in June 2018. A macOS version was released in June 2020. The player controls a boy in a dystopic world, solving environmental puzzles and avoiding death. It is the successor to Playdead's 2010 game Limbo, and features similar 2.5D game-play.
Inside was released to critical acclaim. Critics noted it as an improvement over Limbo, praising its art direction, atmosphere and gameplay, but criticizing aspects of its difficulty. The game was nominated for numerous accolades, including game of the year, and won several independent and technical achievements. Much like Limbo, Inside went on to be considered one of the greatest video games of all time.
